Professional Experience

Frontend Developer at Remote Digital - Istanbul, Turkey (Remote) Sep 2024 - Present

E-commerce Platform for Hearing Aids & Dreve Dental Products:

- Developing a robust e-commerce platform for hearing aid and dreve dental products in Turkey and MENA region.
- Built a responsive storefront with product listings, advanced filters, cart, multilingual support, and order tracking.
- Created admin dashboards for managing products, inventory, categories, orders, users, permissions, and warehouses.
- Implemented a warehouse management interface for stock status, item movement, and fulfillment assignment.

Full Stack Developer at Smart Technology Oasis - Beirut, Lebanon (On-site) Feb 2024 - Oct 2024

Delivered end-to-end solutions for internal systems, client websites, and business platform:

- Developed a system for managing software licenses, including demo, renewal, activation and expiry.
- Developed a responsive site from scratch with UI/UX design, including software details, about us, and contact info.
- Contributed to various other website projects, including eCommerce platforms, WordPress sites, and custom solutions.
- Enhanced POS system by improving features, fixing bugs, and enhancing UI/UX, stock control, reporting, and more.
- **ReactJS, JavaScript, Tailwind CSS, WordPress, Figma, C#, .Net, SQL Compact**

Full Stack Developer at K-TECH Trading Group s.a.l - Beirut, Lebanon (Hybrid) Oct 2023 - Jan 2024

Data Management System:

- Developed a supplier data platform with business card storage and filtering by country, business type, and contact info.
- Implemented bulk email functionality using Gmail's BCC feature.
- Led UI/UX design for a user-friendly, visually appealing interface.
- **Flutter, PHP, MySQL, Firebase (Hosting and Image Storage), Figma**

Dynamic Website Development:

- Developed a website that improved the company's online presence, navigation, and information accessibility.
- Conducted an end-to-end UI/UX design to ensure a user-friendly experience and visual appeal.
- **NextJS, TypeScript, Tailwind CSS, Figma**

Education

Lebanese International University - Beirut, Lebanon Oct 2020 – June 2023
Bachelors of Science in Computer Science

Personal Projects

Zayt Jdoudna:

- Designed and developed a modern website to showcase our family's olive oil legacy.
- Integrated WhatsApp ordering, YouTube video gallery, and customer testimonials.
- Focused on storytelling and UI that reflects our roots, values, and tradition.
- **NextJS, TypeScript, Tailwind CSS, Figma**

Services Management System Platform:

- Modular SaaS platform that manages various services with support for clients, payments, reports, and dashboards.
- Built for the Lebanese market, with plans to expand across the Middle East.
- Includes the Eshterak module specifically for handling electricity subscriptions.
- **Laravel PHP, MySQL, JavaScript, Tailwind CSS**

Waste Management System:

- Built a system for warehouse management, including manager assignment, driver information, and route-bin allocation.
- Added features for dispatchers to manage jobs and track bin statuses and driver-reported job progress.
- Implemented a feature for managing weighted collected waste; sorting by material type and warehouse material slots.
- Created a dynamic dashboard with cards and charts to visualize warehouse metrics and progress.
- **Laravel PHP, MySQL, JavaScript, Tailwind CSS**
